

LIVE EVENT VIDEO PRODUCTION

4Site records and webcasts events and helps you leverage the video afterwards for maximum reach.

SINGLE CAMERA RECORDING

This solution is suited for recording individual presentations. A single camera is used to capture the speaker. A copy of the PowerPoint is retained and edited into the video later. Branded graphics are added to the video to identify the event and the speakers. In addition to a high-definition, edited version of the full event, we provide a short highlight video and screen grabs for social media promotion.

Half Day
\$1500

Full Day
\$2000

TWO-CAMERA RECORDING

Ideal for panel discussions and audience Q&A. Two cameras are used to capture all the action. A copy of the presentation is edited into the video and branded graphics are created to identify the event and the speakers. A high-definition version of the full event is provided, in addition to a highlight video and screen grabs for promoting on social media.

Half Day
\$2000

Full Day
\$2500

THREE-CAMERA RECORDING

For marquis events that require a broadcast level of production, we record your event with three cameras to ensure that we capture head-on shots of all speakers. An onsite Director controls a video mixer, adding in a live projector feed of the PowerPoint. In addition to the full edited program, we provide highlight video and screen grabs for promoting on social media.

Half Day
\$2500

Full Day
\$3000

Webcast the event live on a Livestream or UStream channel for an additional \$1500.

Half Day refers to events that are up to three hours in duration. Events lasting longer than three hours are considered Full-Day events.

4Site provides a wide variety of video production services. Please contact us at **Video@4SiteStudios.com** or **(202) 518-7083**.
